- View photos and listen to music directly from USB devices
- Car mount pouch included for easy in-car use
- Full Resume on Power Loss
- AC adaptor, car adaptor and AV cable included

PHILIPS
sense and simplicity

Highlights

MP3-CD, CD and CD-RW playback

MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A single CD can store up to 10 hours of music.

5-hour built-in battery*

This Philips player comes with a compact built-in rechargeable battery for long-lasting power. Up to 5 hours of continuous movie, photo and music playback enjoyment can be achieved on a single charge. Just plug in the power cable to recharge the player - it's that simple.

Car mount pouch

Mount your portable DVD player easily to your car headrest. You can enjoy DVD movies on the road.

7" swivel color LCD panel

7" swivel color LCD panel for improved viewing flexibility

USB Direct plays photos/music

Simply plug in your USB device on the system and share your stored digital music and photos with your family and friends.

DivX Certified

With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4 based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

Power Resume

The DVD-Video player remembers where you have finish viewing a DVD and continue playing from the exact scene where you stopped watching even after a power failure. If you did not take the disc out of the player, simply press play and it will resume play where you have stopped the movie. For other disc that you have taken out of the player, just reload the disc and press "play" followed by "resume" on the remote control. The Philips DVD-Video player makes life easy!
